PROFESSIONAL EXPERIENCE

Beta Microsoft Learn Student Ambassador 🌐 09/2024 – present

- Hosted Cloud Skills Challenge (Web Development for beginners) as part of the Community Builder path.

Frontend Intern (at Achilyon Softwares) 🌐 10/2024 – 11/2024

- Developed a responsive website for **United Tours India** using **React.js** and **Tailwind CSS**, enhancing user engagement and streamlining booking processes.
- Collaborated with the digital marketing team to align the design with business goals and ensure a seamless user experience.
- Implemented features like intuitive navigation and performance optimization, resulting in faster load times and improved usability. *LiveLink* 🌐

PROJECTS

Health Tracker 🌐

- A full-stack Health Tracker application utilizing the MERN stack (MongoDB, Express.js, React.js, Node.js) to enable users to monitor vital signs such as body temperature, heartbeat, and blood pressure.
- Designed a responsive and intuitive interface with Tailwind CSS for seamless functionality across devices.
- Incorporated bcrypt for password hashing to safeguard user credentials, ensuring data privacy.

Todoist 🌐

- A feature-rich Todo List platform leveraging the MERN stack to allow users to create, update, delete, and track tasks.
- Tailored the user experience with a responsive layout using Tailwind CSS.
- Deployed secure user authentication via password hashing, ensuring protected data access.
